

Important information at a glance

The application for benefits for education and participation takes place with the submission of the main application. It is necessary to submit attachments / evidence for the desired service in good time (before the payment is due).

Separate attachments / evidence for each type of benefit are required for each child.

The services are in each Responsibility processed and decided. Billing takes place directly with the Provider of the service or with the applicant. You must keep receipts, invoices, evidence and registrations.

Other services (e.g. youth welfare or Training allowance) have priority and exclude services from the education and participation package.

Any questions?

This flyer presents the education and participation package in a very streamlined and simple form. Why? True to the motto "less is more," this should help you to get a first impression Side stand. At the same time, it cannot and should not replace advice tailored to your personal concerns.

So please do not hesitate to contact us. We make it **possible for you to participate** and look forward to hearing from you.
